

Texas Burglar & Fire Alarm Association Members Receive a Wide-Range of Benefits

Now is the Time to Join!

TBFAA Represents YOUR Interests

TBFAA teams with the South Texas Alarm Association (STAA), Houston Gulf Coast Alarm Association (HGCAA), North Texas Alarm Association (NTAA) and other local associations to monitor and influence local ordinances on your behalf. **We employ a dedicated lobbyist** in Austin to represent our industry's interests at the state level and we monitor the licensing agencies that regulate you each day.

TBFAA Helps You Hit Your Target Market

As a TBFAA Member you are given a membership certificate, use of the TBFAA logo and a FREE listing on TBFAA's Web site. It's a fact that consumers search the Web for reputable companies. Many consumers prefer a company that belongs to an association due to the code of ethics and procedures an association follows.

TBFAA Gives You a National Voice!

In December of 2004, TBFAA formed a new alliance along with associations in Maryland, Virginia, Kansas, Oklahoma and Arkansas. The National Electronic Security Alliance (NESA) will help TBFAA to stay on top of federal legislation and regulations and allow us to exchange information with our peers in other state associations throughout the country to improve how we serve our members.

TBFAA Members Save on Services!

Training discounts on Level 1 and Fire Prep classes that help you meet licensing requirements in Texas. **Discounts on member services** including: insurance, publications, Web hosting and development, credit card processing, and more. **Access to the member only section** of the TBFAA Website, www.tbfaa.org.

TBFAA Gives You the Power of Association.

TBFAA members network at an annual convention and trade show and at local meetings. Being able to talk to other professional who do what you do, who are faced with the same challenges you are, who can share valuable information with you to help your business and in return you can do the same, this is the Power of Association.
